

MINUTES FROM THE 20TH MEETING
June 10, 2015

Date:	10. 6. 2015	Duration:	15.00 – 17.00
Location:	NIJZ, Zaloška 29, Ljubljana		

Meeting agenda:

- 1. Review of previous meeting's conclusions**
- 2. Measles: Instructions for identifying and reporting people who are susceptible to the infection**
- 3. Instructions for the implementation of a vaccination programme and medications for 2015**
- 4. Opinion regarding child vaccination and compensation in the case of the live attenuated polio vaccine**
- 5. Information on the declared side effects following vaccination (March 2015 - June 2015)**

Meeting summary:

Ad 1.

We have received an answer from the ZZSZ regarding the use of Palivizumab. Until the new season of RSV, the NIJZ prepares a report of the current system by suggesting possible improvements taking accessibility into consideration.

Ad 2.

A general algorithm for measles and corrections to the recommendations for the prevention of transmission in health care facilities were presented. Also test data for the presence of antibodies against measles in the employees at the Hospital Golnik were introduced.

Ad 3.

The principal novelty in the Guidelines for the implementation of the vaccination programme and medications for 2015, will be published on the NIJZ website on 06.11.2015. The programme and the instructions are published on the NIJZ website.

Ad 4.

The NIJZ received through SZD a request for an opinion regarding compulsory vaccination and compensation in a case of a live attenuated polio vaccine. The IAG supports the idea that the new law should provide the procedure for a compensation claim in post-polio syndrome cases.

Ad 5.

Side effects following vaccination, reported during the period from 18. 3. 2015 to 9. 6. 2015, were presented.

Ad 6.

The International Rotary Club organizes a consultation on vaccination in Maribor, intended for the lay public on the Polio Day (24.10.).

An Immunization Advisory Group member says that an amendment of prevention programmes for children and a schedule of systematic examinations, which provides uniform interval between systematic examinations, are being prepared. The IAG wants to be kept informed about the proposal to timely assess the impact of changes on the vaccination programme.
