

# Recommendations

**CONSULTATIVE MEETING  
NATIONAL COMMITTEE ON IMMUNIZATION PRACTICES  
(NCIP)  
14-15 FEBRUARY 2013  
HOTEL HIMALAYA  
KATHMANDU, NEPAL**

# Hepatitis B Recommendations

# Hepatitis B Recommendations

This consultative meeting recommends for:

- Mapping of the high risk sub- population;
- Regarding the adult immunization to be considered only for high risks population.
- Create mechanism for collecting data related to Hepatitis B;
  - liver diseases, cancer , blood donor screening programs.

# HPV Recommendations

# HPV Recommendations

- Recommend to review the ongoing HPV vaccination program conducted by NACCF.
- Recommend to review of different studies on burden of illness by different NGOs e.g. NNCTR/NFCC to develop a common strategy and consider the possibility of developing a collaborative demonstration project and comprehensive cervical cancer care.

# Typhoid Vaccine Recommendations

# Typhoid Vaccine Recommendations

- Continue on the sentinel surveillance for typhoid should be rolled into the national antimicrobial resistance (AMR) surveillance coordinated by NPHL.
- Continue on typhoid sentinel surveillance should be expanded to sites already in the AMR surveillance system especially in hospitals located in larger municipalities outside Kathmandu Valley.

# Typhoid Vaccine Recommendations

- Consideration should be given to reviewing and standardizing laboratory procedures used by sentinel sites;
- Recommend to seek assistance in developing the plan including resource mobilisation for vaccination of school aged children in Kathmandu District.
  - subsequent follow-up campaigns to Lalitpur and Bhaktapur district.

# Typhoid Vaccine Recommendations

- Recommend to expand plan for vaccination of school aged children in other areas of the country in a phase wise manner based on disease burden.
- Review with NRA to select the best available vaccines for the use in this program.

# Cholera Vaccine Recommendations

# Cholera Sentinel Surveillance

- Review the available data from the country and other countries in the region .
- To reinforce the last year recommendation to MoHP preparedness plan in response to outbreaks.
- Continue on cholera sentinel surveillance in the national antimicrobial resistance program at NPHL.

**THANK YOU**
