1. **Review previous meeting's conclusions**
2. **Measles: the situation in Slovenia**
3. **How to make people more aware of the possibilities to protect against diseases through vaccination**
4. **Acquaintance with the declared side effects after vaccination (December 2014 - March 2015)**
5. **Miscellaneous**

Meeting summary:

Ad 1.

Members of the Immunization Advisory Group suggest that the ZZS re-send the letter regarding the use of Palivizumab. Then the meeting agenda was presented.

Ad 2.

The current situation regarding measles in Slovenia was presented.

Ad 3.

We have to agree that in principle, family doctors should be more informed about the possibilities of protection against certain infectious diseases by vaccination and should raise awareness to their patients. A proposal has been sent to add a vaccination module to the programme specialization at the Department of Family Medicine, with an emphasis on adult vaccination prepared by the NIJZ. Also a letter has been sent to all family doctors with the information regarding options and advisability of adult vaccination.

Ad 4.

Side effects after vaccination, declared during the period of 4. 12. 2014 to 17. 3. 2015, were presented.
