In the MMWR Recommendations and Reports "[Human Papillomavirus Vaccination: Recommendations of the Advisory Committee on Immunization Practices \(ACIP\)](#)," an error occurred on page 5. The last sentence of the first full paragraph should read, "Among these six cancers, approximately **21,300** were attributable to HPV16/18 (**7,900 [37%]** among men and **13,400 [63%]** among women) ([Table 2](#))."

In [Table 2](#) on page 6, the average annual numbers of cancers attributable to HPV 16/18 were incorrect. Following is the corrected table:

TABLE 2. Average annual number and percentage of cancer cases attributable to human papillomavirus and to HPV 16 and HPV 18, by anatomic site and sex — United States, 2006–2010.
